OBJECTIVE

Work in a collaborative team to develop high quality IRT along with peripheral integrations and transfers to build under budget and within scope. Have the capability to grow professionally and the ability to develop within the company construct.

EXPERIENCE

AUG 2015- Present

YPrime

Raleigh, North Carolina

Project Manager

Team Abilities

- Collaborating with multiple build teams, remote and local, to manage projects on time and under budget.
- Comfortable talking about coding logic with development from IRT to DT integrations.
- SE for validation team to understand workflow, assess risk and manage blockers.
- Ability to work in waterfall, agile and hybrid models to best fit the build and team's needs.

Technical Abilities

- Ability to write and implement technical documents that can be used to develop integration and transfer calls.
- Comfortable working across all environment to provide a full integration for the protocols needs.
- Knowledge in Rave, Medidata, Merge, Trial Master, Depot Vendor Transfers, Inbound and Outbound transfers, CTMS, PMD and Reconciliation Files.
- Comfortable decoding xml and flat files, working with sftp, configs, sql and remote desktops.
- Troubleshoot integrations and forecast problem areas during the build process that may cause pain points after go live.

IRT Abilities

- Ability to build Double Blind, Single Blind, Open Label IRT systems based on protocol specifications.
- Comfortable working with Cohort, Stratification, Dose Management, Multiple Treatment Arms, Weight Based Dosing, Titration, Unblinding, Extension, Backfilling, Satellite sites along with complex dosing and visit workflows to meet the protocols needs.
- Manage big scale change orders including scoping in new drug types, visit schedules, cohort management, removal of treatment arms, inefficient workflows to keep systems relevant and aligned to amendments to protocols.

PM Abilities

- Set processes that manage and maintain multiple projects. Keeping critical items forward while allowing low level items to process in an organic workflow
- Comfortable working in Excel, Word, SSMS, Visio, SharePoint and cloud based technologies.

- ## Company Assets
